

This paper has been prepared by the EFRAG Secretariat for discussion at a public meeting of EFRAG FR TEG. The paper forms part of an early stage of the development of a potential EFRAG position. Consequently, the paper does not represent the official views of EFRAG or any individual member of the EFRAG FRB or EFRAG FR TEG. The paper is made available to enable the public to follow the discussions in the meeting. Tentative decisions are made in public and reported in the EFRAG Update. EFRAG positions, as approved by the EFRAG FRB, are published as comment letters, discussion or position papers, or in any other form considered appropriate in the circumstances.

Amendments to the Classification and Measurement of Financial Instruments – Feedback analysis

Cover Note

Objective

- 1 The objective of this session is to provide the EFRAG FR TEG with a summary of the IASB discussions and decisions on the feedback received and the IASB staff recommendations on the following three topics of the IASB ED *Amendments to the Classification and Measurement of Financial Instruments* (*‘the ED’*):
 - (a) Assessment of contractual cash flows;
 - (b) Derecognition of financial liabilities through electronic transfer; and
 - (c) Equity instruments and other comprehensive income.

Background

- 2 The IASB has carried out a post-implementation review of the classification and measurement requirements in IFRS 9 *Financial Instruments* and related requirements in IFRS 7 *Financial Instruments: Disclosures* (*‘PIR’*). The work performed by the IASB and the conclusions reached are summarised in the [Project Report and Feedback Statement—Post-implementation Review of IFRS 9 Financial Instruments—Classification and Measurement](#), published in December 2022.
- 3 To address the issues identified during PIR, in March 2023 the IASB published [the ED](#), proposing the following amendments to IFRS 9:
 - (a) derecognition of a financial liability settled through electronic transfer;
 - (b) classification of financial assets — to clarify the application guidance for assessing the contractual cash flow characteristics of financial assets, including:
 - (i) financial assets with contractual terms that could change the timing or amount of contractual cash flows, for example, those with ESG-linked features;
 - (ii) financial assets with non-recourse features; and
 - (iii) financial assets that are contractually linked instruments.
- 4 The ED also proposed to make amendments to the disclosure requirements in IFRS 7 for:
 - (a) investments in equity instruments designated at fair value through other comprehensive income (OCI); and

- (b) financial instruments with contractual terms that could change the timing or amount of contractual cash flows on the occurrence (or non-occurrence) of a contingent event that is specific to the debtor.

IASB discussions

- 5 In its September 2023 meeting the IASB discussed the overall feedback analysis on the ED and was not required to make any decisions.
- 6 In its October 2023 meeting, the IASB discussed the detailed analysis of the feedback received and the IASB staff suggestions on Question 2 of the ED on contractual terms that are consistent with a basic lending arrangement. The IASB members were not asked to make any decisions at this stage.
- 7 In its November 2023 meeting, the IASB discussed the IASB staff analysis and recommendations on:
 - (a) Question 1 of the ED on the derecognition of a financial liability through electronic transfer; and
 - (b) Question 5 of the ED on disclosures relating to equity instruments and other comprehensive income.
- 8 All 13 IASB members present agreed with the IASB staff recommendations on Questions 1 and 5.

EFRAG discussions

- 9 EFRAG FIWG discussed the overall feedback analysis at its meeting on 9 October 2023 and reiterated that the timely solution from the IASB is needed for the instruments with ESG-linked features. Members also noted that given the diverging views of stakeholders on the proposed disclosures of contractual terms that could change the timing or amount of contractual cash flows, it will be a challenge for the IASB to find a solution.
- 10 EFRAG FR TEG discussed the same topic on 19 October 2023 and supported the EFRAG FIWG view about the need of urgent solution for the instruments with ESG-linked features.
- 11 EFRAG FIWG and IAWG discussed today's topics at its meetings on 20 and 21 November 2023. The feedback is noted in respective papers.

Next steps

- 12 The IASB is planning to discuss the IASB staff's analysis of feedback on the remaining questions at future meetings.
- 13 The EFRAG Secretariat will monitor the IASB discussions and provide regular update to EFRAG working groups and EFRAG FR TEG.

Agenda Papers

- 14 In addition to this Cover Note the following agenda papers are presented for this session:
 - (a) Agenda Paper 03-02 - Amendments to the Classification and Measurement of Financial Instruments – Feedback on contractual cash flows;
 - (b) Agenda Paper 03-03 - Amendments to the Classification and Measurement of Financial Instruments – Derecognition of a financial liability through electronic transfer; and
 - (c) Agenda Paper 03-04 - Amendments to the Classification and Measurement of Financial Instruments - Equity instruments and OCI.
