OVERVIEW

- Opening of the session by EBF, Insurance Europe, EFRAG and the IASB
- IASB presentation, panel discussion and Q&A session on:
 - **Topic 1** - Categories and Sub-Totals
 - **Topic 2** - Management-defined Performance Measures
 - **Topic 3** - Grouping – aggregation and disaggregation – of information
 - **Topic 4** - Limited changes to the Cash Flow Statement, effective date and transition requirements
- Main takeaways and closing

PRESENTERS, MODERATOR AND PANELLISTS

EDUCATIONAL SESSION ON IFRS 18 FOR FINANCIAL INSTITUTIONS: 11 JUNE

I A S B BOARD

IFRS ENDORSEMENT PROCESS (reminder)

- 1 • **IASB issues** a new standard or interpretation of a standard or an amendment to an existing standard or interpretation
- 2 • European commission (EC) issues the **Endorsement Advice Request to EFRAG**. The endorsement advice request for the IFRS 18 was received on April 29, 2024
- 3 • EFRAG issues its impact assessment and draft endorsement advice for public consultation
- 4 • **EFRAG provides its final endorsement advice to the EC** on endorsement (expected Q2 2025)
- 5 • If **EC decides to endorse** the new standard, interpretation or amendment, it prepares a draft regulation and **submits it to the ARC in all EU official languages**
- 6 • If the ARC's opinion is positive, the **EC submits the draft regulation to the European Parliament and the Council** for a 3-month scrutiny period
- 7 • If there are no objections from the European Parliament or the Council, the **EC adopts the endorsing regulation and publishes it in the Official Journal**

IFRS 18 – ENDORSEMENT CONSIDERATIONS (REQUEST RECEIVED 29 APRIL 2024)

[Regulation \(EC\) No 1606/2002](#) (IAS Regulation) establishes the criteria for the IFRS Accounting Standards to be adopted in the EU.

Technical endorsement criteria

- Relevance
- Reliability including prudence
- Comparability
- Understandability
- True and Fair view

European public good criteria

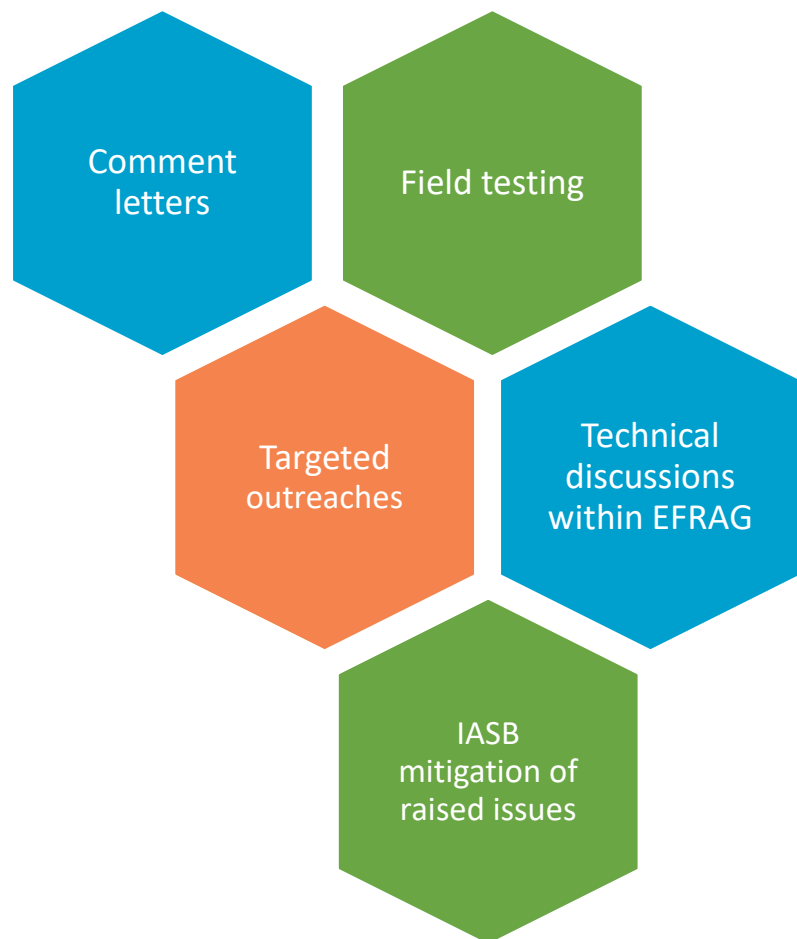

- Potential effect on EU economy (financial stability, competitiveness)
- Potential effects on stakeholders
- Costs and benefits analysis

Other criteria

- No other criteria were requested by the EC

INPUT FOR THE ASSESSMENT OF THE ENDORSEMENT CRITERIA

Already known

Workplan

EFRAG:

Connect issues raised to the endorsement criteria

Identification of the remaining topics based on consultation of technical experts and through public outreach events like occurring today

Impact assessment

Assessment of the European Endorsement Criteria based on public consultation

Primary Financial Statements

Florian Esterer, IASB Member

Hagit Keren, IASB Member

Roanne Hasegawa, IASB Technical Staff

Juliane-Rebecca Upmeier, IASB Technical Staff

Nick Barlow, IASB Technical Staff

Project Overview

Helicopter view

New IFRS Accounting Standard to improve reporting of financial performance

Responds to investors' demand for better information about companies' financial performance

Improves how information is communicated in the financial statements

Gives investors a better basis for analysing and comparing companies' performance

IFRS 18 – the new requirements

New required subtotals in statement of profit or loss, including ‘operating profit’

Disclosures about management-defined performance measures (MPMs)

Enhanced requirements on grouping of information (aggregation and disaggregation)

Better information for better decisions

– increases comparability, transparency and usefulness of information

Effective date: 1 January 2027

Categories and subtotals

Categories and subtotals in the statement of profit or loss

Investors' concerns

- Difficulty comparing financial performance because companies' statement of profit or loss vary in content and structure

IFRS 18 introduces

- Three new defined categories to provide a consistent structure of the statement of profit or loss:
 - operating
 - investing
 - financing
- Two new required subtotals to enable analysis:
 - operating profit
 - profit before financing and taxes

New required subtotals

Operating profit

Gives a complete picture of a company's operations

Profit before financing and income taxes

Gives a picture of a company's performance before the effects of its financing

Statement of profit or loss

Revenue

Cost of sales

Gross profit

Other operating income

Selling expense

Research and development expenses

General and administrative expenses

Goodwill impairment loss

Other operating expenses

Operating profit

Share of profit or loss of associates and joint ventures

Other investment income

Profit before financing and income taxes

Interest expense on borrowings and lease liabilities

Interest expense on pension liabilities and provisions

Profit before taxes

Income tax expense

PROFIT

What is in the operating category?

Income and expenses:

- All income and expenses from a company's operations, regardless of whether they are volatile or unusual in same way
- Including from its main business activities

Works for all business models

Provides complete picture of company's operations

What is in the investing category?

Income and expenses from assets that generate a return individually and largely independently of other resources held by an entity

- rental income and remeasurements of investment property
- interest income and fair value changes on financial assets, such as debt securities
- Dividends and fair value changes on non-consolidated equity investments

Income and expenses from non-consolidated subsidiaries, associates and joint ventures

Income and expenses from cash and cash equivalents

What is in the financing category?

All income and expenses from liabilities from transactions that involve only the raising of finance

- Receipt and return of cash or company's own shares
- Reduction in financial liability
- E.g., bank loans

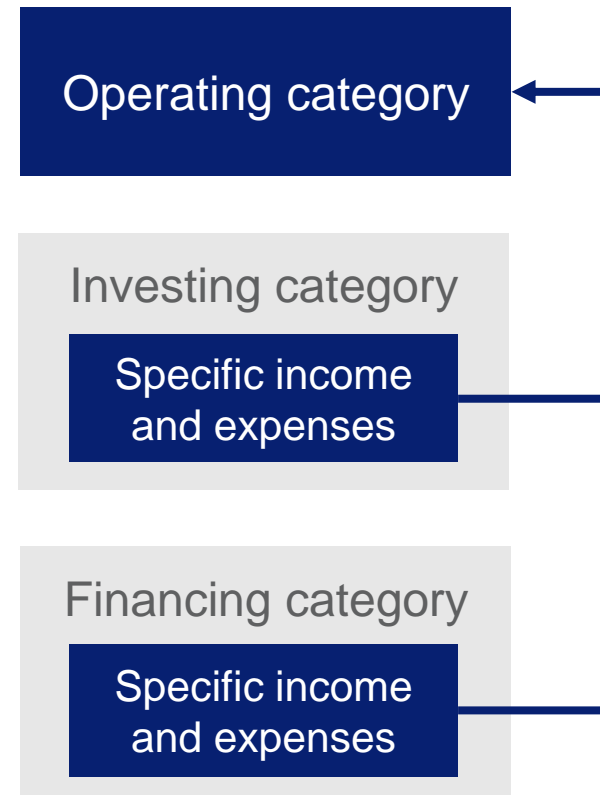

Interest expense and effects of changes in interest rates from other liabilities

- Lease liabilities
- Defined benefit pension liabilities

Requirements for specific companies

- For some companies, financing and investing activities are their main business activities – for example banks and insurers
- These companies include income and expenses in their operating profit that for other companies would be included in the investing or financing categories

Assessment of main business activities

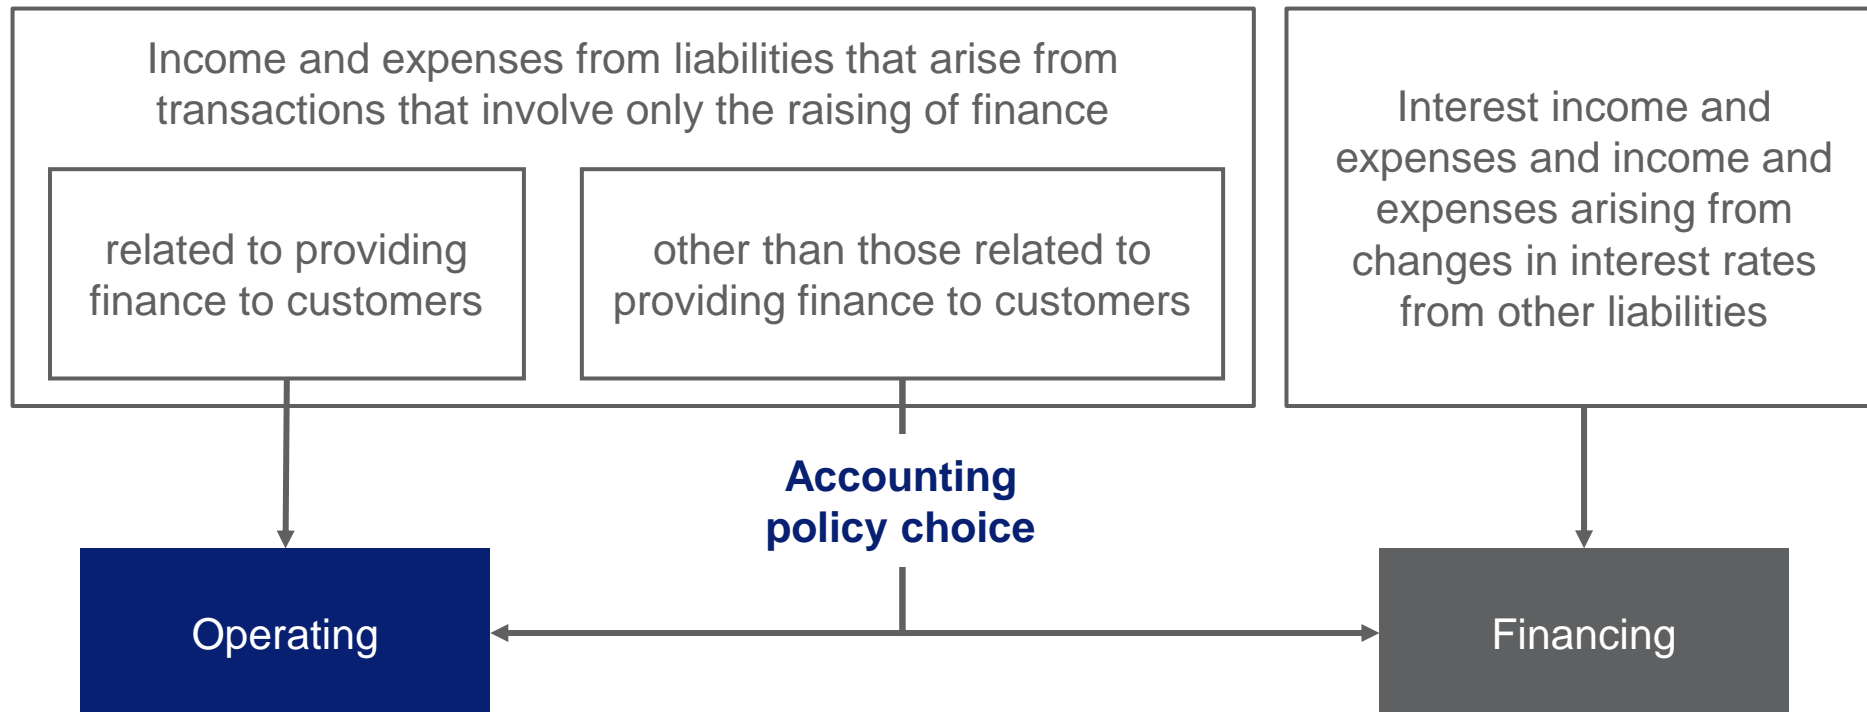

The role of main business activities is limited to assessing whether an entity either:

- **invests** as a main business activity; or
- **provides financing to customers** as a main business activity

An entity uses **judgement** to assess its main business activities **based on evidence**. For example:

- Operating performance measures, such as net interest income and net financial result, used to explain operating performance externally
 - A reportable segment or operating segment that comprises a single business activity and performance of that segment is an important indicator of the entity's operating performance
-

Accounting policy choice for entities that provide financing to customers as a main business activity

Examples of statements of profit or loss for other entities

Statement of profit or loss for a bank

Interest revenue

Interest expense

Net interest income

Fee and commission income

Fee and commission expenses

Net fee and commission income

Net trading income

Net investment income

Credit impairment losses

Employee benefits

Depreciation and amortisation

Other operating expenses

Operating profit

Share of profit or loss of associates and joint ventures

Interest expense on pension and lease liabilities

Profit before income taxes

Income tax expense

PROFIT

Operating

Non-main
Investing and
financing

Statement of profit or loss for an insurer

Insurance revenue

Insurance service expenses

Insurance service result

Investment revenue

Credit impairment losses

Insurance finance expenses

Net financial result

Other operating expenses

Operating profit

Share of profit or loss of associates and joint ventures

Profit before financing and income taxes

Interest expense on borrowings and pension liabilities

Profit before income taxes

Income tax expense

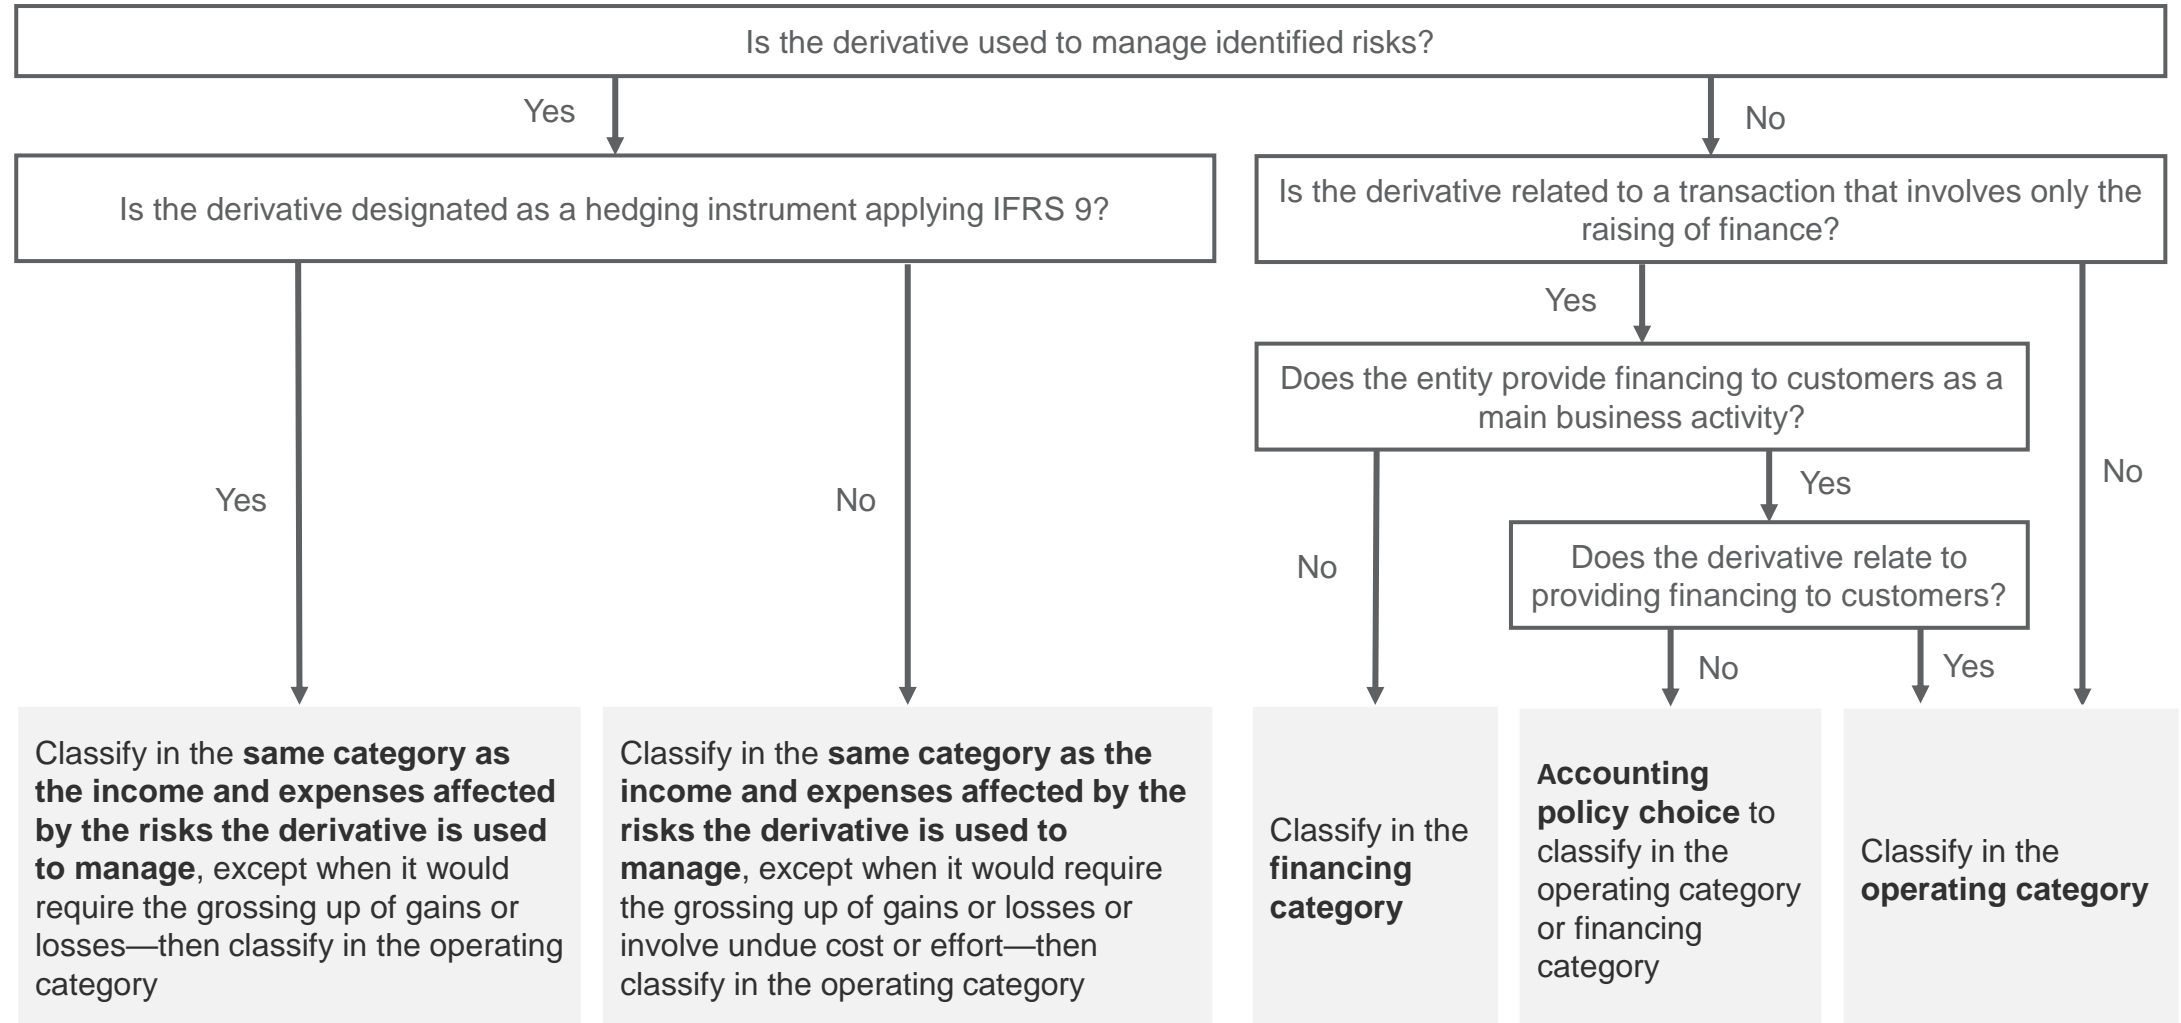

PROFIT

Operating

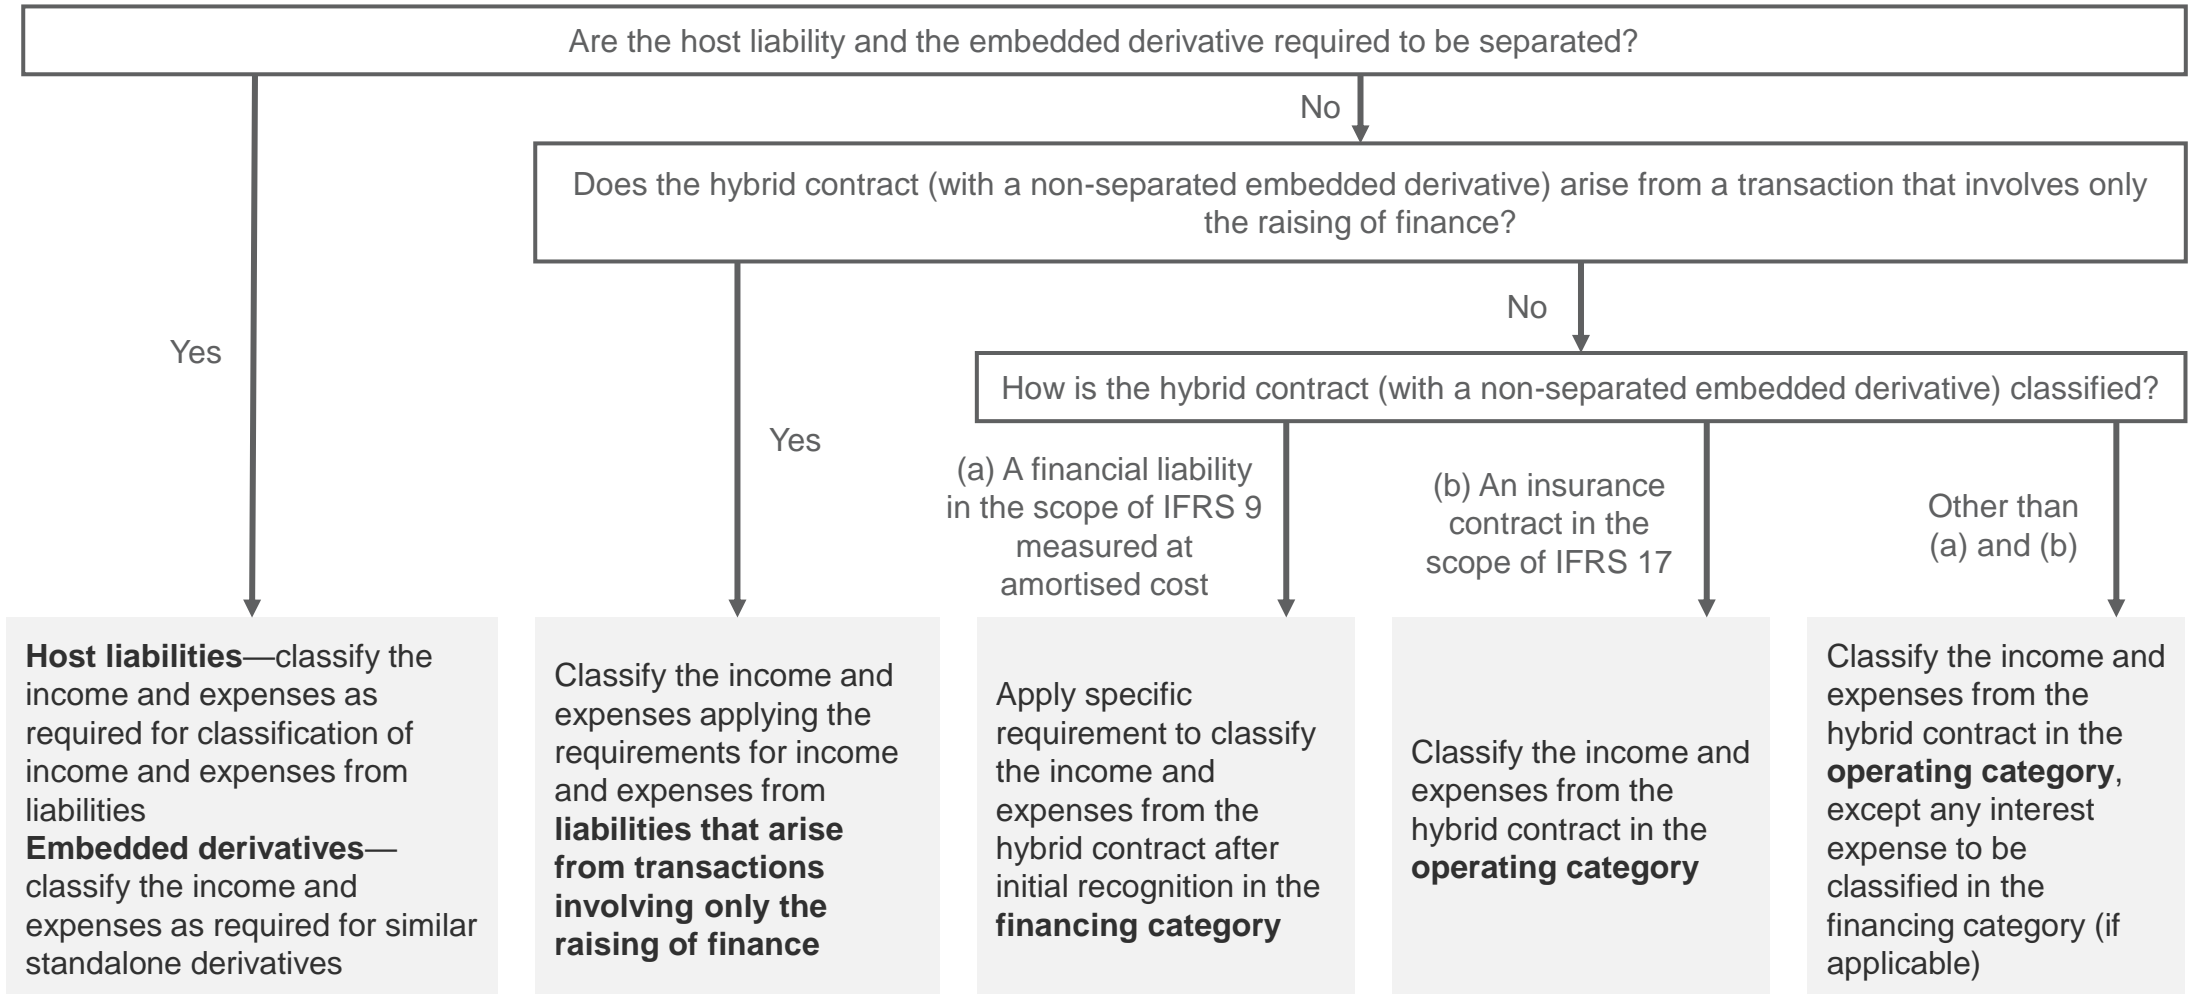

Investing

Financing

Classification of gains and losses from derivatives

Classification of income and expenses on hybrid contracts with host liabilities

How will foreign exchange differences and gain or loss on the net monetary position be classified?

- Foreign exchange differences classified in same category as income or expenses giving rise to the gain or loss, for example:

Exchange difference on:	Classification
Receivables for the sale of goods	Operating
Cash and cash equivalents	Investing
Debt issued	Financing
Income tax payables	Income taxes
Provisions / lease liabilities	Apply judgement to determine the category

- If classifying foreign exchange differences in each category will involve undue cost or effort, they are classified in the operating category.
- Gain or loss on the net monetary position classified in operating category, unless an entity presents the gain or loss on the net monetary item with income and expenses associated with the net monetary position.

The new subtotals will

- provide a **consistent structure** of the statement of profit or loss
- **improve comparability** of companies' financial performance
- **aid investors' forecasts** of cash flows and assessment of margins

Management-defined performance measures

Management-defined Performance Measures (MPMs)

Investors' concerns

- Investors find MPMs useful but they have concerns about lack of transparency of how these measures are calculated

Examples of alternative performance measures (APMs) or non-GAAP measures used today

- **Adjusted operating profit**
- **Adjusted profit or loss**
- **Adjusted EBITDA**
- Free cash flow
- Return on equity

Management-defined Performance Measures (MPMs)

Subtotals of income and expenses not required or specifically exempted by IFRS Accounting Standards

Included in **public communications outside financial statements**

Measures that communicate **management's view** of a company's financial performance

Disclosures for MPMs

IFRS 18 introduces requirements to disclose in a single note

- **Reconciliation** back to IFRS-defined subtotal
- Explanation of **why** the MPM is reported
- Explanation of **how** the MPM is calculated
- Explanation of any **changes** to the MPM

What might a reconciliation look like?

	IFRS	Impairment losses	Restructuring expenses	Gains on disposal of PP&E	MPM
Other operating income		-	-	(1,800)	
Research and development expenses		1,600	-	-	
General and administrative expenses		-	3,800	-	
Goodwill impairment loss		4,500	-	-	
Operating profit / Adjusted operating profit	57,000	6,100	3,800	(1,800)	65,100
Income tax expense		-	(589)	297	
Profit from continuing operations / Adjusted profit from continuing operations	32,100	6,100	3,211	(1,503)	39,908
Profit attributable to non-controlling interests		305	161	-	

Disclosures about MPMs will

- enhance **transparency** of MPMs
- **increase investors' understanding** of how MPMs compare with the measures defined by IFRS Accounting Standards

Grouping – aggregation and disaggregation – of information

Grouping – aggregation and disaggregation – of information

Investors' concerns

- some companies don't provide enough detailed information
- important information is obscured

IFRS 18 introduces

- enhanced requirements for grouping of information, including requirements for presenting and disclosing operating expenses
- guidance on whether information should be in the primary financial statements or the notes
- disclosures about items labelled as 'other'

Roles of the primary financial statements and the notes

Primary financial statements (PFS)

Statement of financial position
(balance sheet)

Statement of profit or loss
(income statement)

Statement presenting comprehensive income

Statement of changes in equity

Statement of cash flows

Notes to the financial statements

Role is to provide structured summaries of a company's assets, liabilities, equity, income, expenses and cash flows

Role is to provide further information and supplement PFS

Aggregation, disaggregation and meaningful labels

Aggregate based on shared characteristics

Single dissimilar characteristic can be enough to disaggregate if resulting information is material

Use meaningful labels

- use the label 'other' only when unable to find a more informative label
- label as precisely as possible (eg 'other operating expenses')

Disclosure of specified expenses by nature

Disclose the amounts included in each line item in the operating category of the statement of profit or loss for

Depreciation	Amortisation	Employee benefits	Specified impairments	Write-down of inventories
--------------	--------------	-------------------	-----------------------	---------------------------

Qualitative explanation is required to be disclosed if part of the amount disclosed has been included in the carrying amount of assets

Specified expenses by nature note

(in currency units)	20X2	20X1
Cost of sales	23,710	21,990
Research and development expenses	2,515	2,590
General and administrative expenses	4,975	4,750
Total depreciation	31,200	29,330
Research and development expenses	13,840	12,690
Total amortisation	13,840	12,690
Cost of sales	61,640	57,175
Selling expenses	7,515	7,110
Research and development expenses	6,545	6,750
General and administrative expenses	8,920	5,825
Total employee benefits	84,620	76,860
Research and development expenses	1,600	1,500
Goodwill impairment loss	4,500	–
Total impairment loss	6,100	1,500
Cost of sales	2,775	2,625
Total write-down of inventories	2,775	2,625

The amounts disclosed are those recognised as expenses in the statement of profit or loss for the year, except for depreciation and employee benefits.

The amounts disclosed for depreciation are the charge for the year, calculated in accordance with IAS 16 *Property, Plant and Equipment*. The amounts include amounts that have been capitalised by including them in the carrying amount of inventory at the end of the reporting period.

The amounts disclosed for employee benefits are the costs incurred for the year, including pension costs, for employee services, calculated in accordance with IAS 19 *Employee Benefits*. The amounts include amounts that have been capitalised by including them in the carrying amount of inventory at the end of the reporting period.

New guidance and disclosures will

- **help companies** decide how to group information
- enhance **transparency**
- improve **usefulness** of information to investors

Limited changes to the cash flow statement

Limited changes to the statement of cash flows

Operating profit or loss subtotal to be the starting point for the indirect method of reporting cash flows from operating activities

Cash flows	Entities without specified main business activities	Entities with specified main business activities
Interest received	Investing activities	A single category for each item—operating, investing or financing categories
Interest paid	Financing activities	
Dividends received	Investing activities	
Dividends paid	Financing activities	Financing activities

Effective date

When will IFRS 18 come into force?

- 1 January 2027
- Early application permitted
- Applied retrospectively and in interim financial statements

BECOME A FRIEND OF EFRAG

Entities can support EFRAG's mission ensuring that the European views are properly considered in the IASB's standard-setting process and in related international debates

ADVANTAGES

- Visibility on website
- Private meetings with the EFRAG high-level representatives
- Mention in Annual report
- Reserved seats at physical events
- Access to documents prior to publication
- A possible panellist position in EFRAG's events
- A possible EFRAG representation in the entities' events
- Use of "Friend of EFRAG" logo

How to apply?

Complete the online application form [here](#) indicating your legal information, a description of your entity's mission and activities and a motivation statement in support of EFRAG' mission in its financial reporting activities.

Access more info about the Friends of EFRAG [here](#). If you want to request a meeting, please write to caroline.martins@efrag.org.
